Vitamin B1 Mono/Hcl

The Vitamin B1 draws much attention in whole July, since the main factory has rise their offer for both Mono and Hcl. In the end of Jun, one of main factory has stop offering and signing new order. There are less low cost stocks in the market, thus the dealing price is also keep rising. Recently, it gets more more inquiries in market and dealing actively. Vitamin B1 HCL market price is below USD20/KG, and B1 HCL market price is around USD15.0/KG.

Vitamin B2 98%

The product keeps strong after CPHI Shanghai this June. The feed grade of B2 80% have a big increase affected by production capacity shortened, as food grade's being influenced as well, around USD36.9-38/KG FOB depending different brands and quantities. It is predicted to be strong in short time.

D-Calcium Pan/Vitamin B5

Demand is keeping stable this month. Current pricing is around FOB USD16.0-17.0/KG FOB from different brands. We predict it will be strong for a while, need to pay attention to the action of factories.

Vitamin B6

The Vitamin B6 keeps stable and stay at strong level in Jun. Due to the rising cost of raw materials, production pressure is still existing. Now one of the main manufacturer has stop offer, and its stock very limited on the market before that. Next, it needs to attention the factories offer and delivery status and the influence of exchange rate. The market price is around USD 17.5/KG, different brands with little difference.

Folic Acid

In June, Folic Acid keeps stable and market is a bit quiet. The market price for the famous brand is around USD26-28/KG. The market is little weak and the customers make purchasement base on current demands. In short time the price will be still stable, but needs to attention the factories production status.

Biotin 98%

This product is keeping weak this month. The current price is around USD170-180/KG FOB depending on different quantities and brands.

Sweeteners

Glucose series

Affected by the domestic market, some manufacturers have tight delivery schedules, and the price of Glucose is stable and drop little in this month. The price of anhydrous glucose is around USD0.7/KG FOB, and the price of monohydrate Glucose is stable at about 0.55 USD/KG FOB.

Erythritol

At present, the price dropped, and the current export transaction in the market is around USD1.6-1.8/KG.

Aspartame

The market is weak and stable. Current market price is around USD10/KG. Price seems will still be stable in the following days.

Sucralose

The price decrease little again to a bottom level at the moment mainly for the exchange rate issue. Current market price level is around USD18-20/KG.

Saccharin Sodium

The price is stable. The current market price is around USD5.6-6/KG FOB China.

Acidulants

Citric acid series

Now the price of citric acid is soft, due to the weak market demand. The current price dropped slightly and become slowly . The market price of anhydrous citric acid is USD0.75/KG FOB, citric acid monohydrate The market price is USD0.68/KG, we advise to purchased against the demands.

Taurine

The market demand is average this month, there are few inquiries, and the overall price is stable and weak; the current market price is around USD2/KG FOB. The specific market price will be slightly different.

DL-Malic acid

DL-malic acid, because of the price of raw materials fell, and the market demand was general, factory price was going down, but keep stable this month. The current market price is at USD2400-2460/MT.

Preservatives

Sorbic Acid /Potassium Sorbate

The market demand is flat and weak, end users mainly purchase base on demand. Along with the impact of the exchange rate, recently, the price of sorbic acid USD 2.88/KG, and potassium sorbate is about USD 2.50/KG. In the later stage, pay more attention to market changes and manufacturers' signing of orders.

Sodium Benzoate
