VITAMIN

01

On September 10, Tianxin Pharmaceutical announced the suspension of quotations and orders for Vitamin B1 nitrate with immediate effect. During the ongoing Nanjing VIV exhibition, other major manufacturers reportedly also halted quotations. Prior to the suspension, B1 market prices had remained relatively stable.

API

03

- SSY Group Limited announced that its indocyanine green API has been approved and registered by China's National Medical Products Administration for use in marketed formulations. The product can be used to diagnose liver cirrhosis, fibrosis, chronic hepatitis, and drug- or occupation-related hepatotoxicity, helping to assess liver damage and reserve function. It can also be applied in choroidal angiography to identify lesion sites.
- Amoxicillin prices have increased following recent factory adjustments, with strong customer inquiries. Current factory quotations are around USD 20, and prices are expected to remain firm in the near term.

FOOD ADDITIVE

04

Novonesis and Novo Nordisk recently entered a research collaboration focusing on key health indicators such as blood glucose and cholesterol. The partnership aims to develop synbiotic dietary supplements that combine probiotics and prebiotics, leveraging microbiome science to create innovative health solutions. In addition to developing effective products, the collaboration will explore how the gut microbiome can be used to monitor and predict individual health trajectories, as well as identify novel biomarkers to evaluate the effectiveness of microbiome-based interventions.
