VITAMIN

01

Since September 16, Zhejiang Medicine Co., Ltd. has suspended quotations and orders for Vitamin E 50% feed grade

AMINO ACID

02

CJ Biomaterial's 17,000 MT amino acid expansion project has been officially filed. With a total investment of RMB 11.85 million, the project is located in the lysine hydrochloride workshop at Liaocheng Economic Development Zone. Based on existing facilities, it will expand from the current 11,000 MT arginine capacity, adding 17,000 MT of L-arginine without new land occupation.

API

03

Amoxicillin prices continued to firm. Delivery from major factories remains tight, with previous orders still in queue. Factory prices have risen again to around USD 22/kg, pushing up trade channel prices. Strong downstream demand and active procurement suggest prices are likely to stay firm in the near term.

FOOD ADDITIVE

04

Sucralose prices continued to decline, with current transactions at USD 18.07–18.70/kg. Major factories are delivering normally, but further downside cannot be ruled out.
