

V-Tilseo[®]

What is V-Tilseo[®] ?

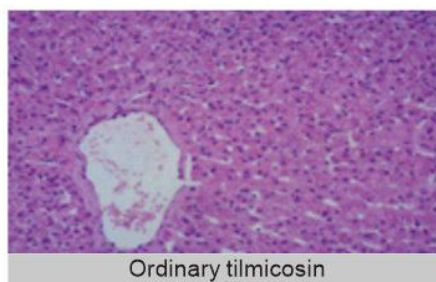

20% coated tilmicosin

Non-bitterness, Safety --2kg / ton feed without side effects

Pig liver section

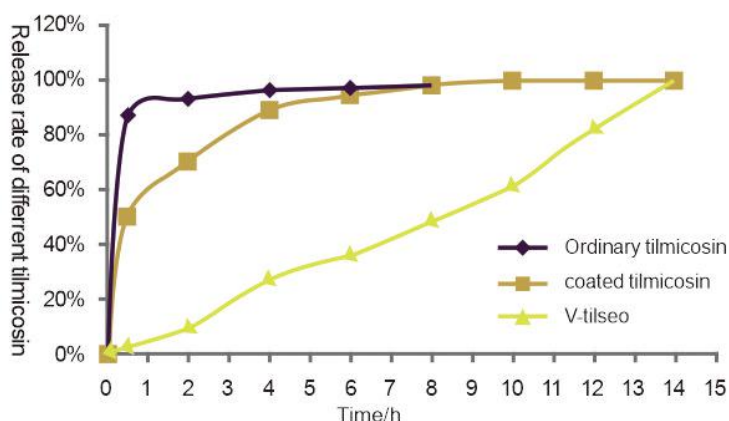

V-tilseo

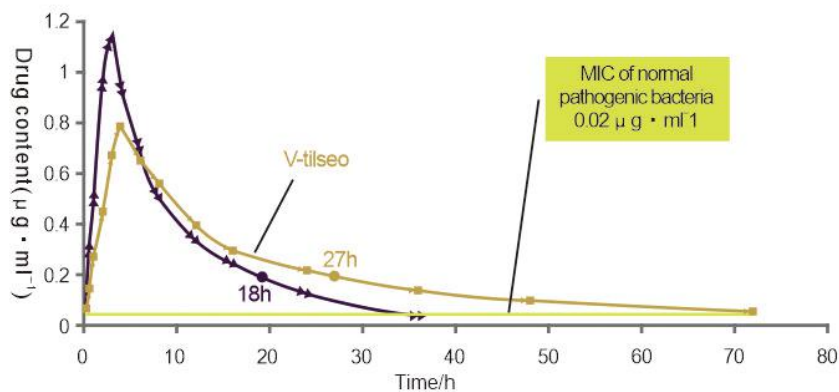

Ordinary tilmicosin

Pass stomach safely, improve bio-availability

0-2h sample is collected in stomach liquid and 2-14h is collected in intestinal liquid

Long drug efficacy

The effective blood concentration was maintained in the animal body for 60 hours

Function

Tilmicosin mainly anti gram-positive bacteria. It is also effective for a few gram-negative bacteria and mycoplasma. It is mainly used to prevent and control livestock pneumonia (caused by pleuropneumoniae, pasteurella, mycoplasma, etc.) respiratory infection and mastitis of lactation animals.

Usage and dosage

Mix with feed: 1-2kg/ton feed, use for 15 days.
