VITAMIN

01

Vitamin B6 prices remain weak as demand stays low. Despite multiple price hikes by major producers, customer purchase was still cautious. In May, some factories and distributors lowered prices, pushing the market down to USD 20.6-21.8/KG. Watch for upcoming price moves from manufacturers.

AMINO ACID

02

Threonine prices are firm, with tight domestic supply and slightly higher factory offers. End-user demand remains cautious, exports are moderate, and prices hover around USD 1,200/MT.

Evonik plans to upgrade its methionine plants in Singapore and Antwerp, including catalyst changes and energy efficiency improvements. Production lines will be shut down for 6–7 weeks in Q3–Q4

API

03

On June 4, NORTHEAST PHARM received EU CEP certification for Fosfomycin Trometamol, becoming China's first company to pass high-level EU registration for this antibiotic.

Amoxicillin prices dipped slightly to USD 25-26.2/KG due to sufficient supply and stable demand. Keep an eye on factory schedules and future demand.

FOOD ADDITIVE

04

Amyris acquired full ownership of the RealSweet JV in Brazil, strengthening its local operations. Ingredion gained exclusive global rights to produce and market fermentation-derived sweetener Reb M using Amyris technology. Both will continue promoting Reb M to meet global stevia demand.
