VITAMIN

01

Fujian Jinshan Zhundian Pharmaceutical Co., Ltd. plans to add new folic acid production equipment with an annual capacity of 765 MT without acquiring additional land. The project will utilize existing production facilities, utilities, and auxiliary infrastructure to construct three new folic acid production lines and modify certain processes related to aminoacetaldehyde dimethyl acetal.

AMINO ACID

02

Threonine prices remain weak and stable, with slow order activity. Factory export prices are around USD 1140/MT. Overall market demand is soft, and end users are cautious about restocking. Short-term prices are expected to remain slightly weak within a narrow range.

API

03

Prices for Tylosin Tartrate and Tilmicosin Phosphate continue to strengthen. Market inquiries are active, and inventories are gradually tightening. With demand expected to increase, manufacturers are holding prices firm or pushing them upward. Current factory prices are around USD 38.7/KG for Tylosin Tartrate and USD 41.2/KG for Tilmicosin Phosphate.

FOOD ADDITIVE

04

The food additive sodium saccharin (anhydrous) has seen stable transaction prices recently, ranging between USD 4.7–5.0/KG, driven by market demand. Prices for dihydrate sodium saccharin are also expected to remain stable in the short term.
