VITAMIN

01

In the vitamin C market, several producers continue to suspend quotations. Traders quotation have risen slightly compared with pre-suspension levels, with mainstream transactions at USD 2.18-2.3/KG. Low-priced supply is limited, and market sentiment remains cautious.

AMINO ACID

02

Valine producers deliveries keep normal with stable offers, trade market prices range from USD 1.67-1.73/KG. Downstream buyers have largely completed earlier stock building, leading to slower new bookings; however, overseas demand remains solid. Prices are expected to stay firm in the short term, with attention on inventory levels and production dynamics.

API

03

- An environmental impact assessment approval for Zhejiang Shenzhou Pharmaceutical Co., Ltd.'s capacity expansion project—covering 20 tons/year of abiraterone acetate and 5 tons/year of norethindrone—has been publicly announced. Total investments amount to approximately USD 0.73 million and USD 0.58 million, respectively.
- Colistin sulfate supply is slightly tight, with firm prices at USD 14.36–14.62/KG, and short-term stability is expected.

FOOD ADDITIVE

04

Shandong Sanyuan Biotechnology Co., Ltd. announced that construction and equipment installation for the remaining 10,000 tons/year capacity of its allulose project have been completed. The company will proceed with environmental acceptance and related procedures before advancing phased commissioning as conditions permit.
