VITAMIN

01

On March 3, major producers of calcium pantothenate collectively raised quotations to USD 4.95/KG, drawing increased market attention. Transaction activity has improved in recent days, with slightly firmer prices and more active trading sentiment.

Meanwhile, Zhejiang Garden Biopharmaceutical Co., Ltd. announced that its wholly owned subsidiary Zhejiang Garden Nutrition Co., Ltd. will conduct a maintenance shutdown of its cholesterol production line in accordance with its annual production plan. The shutdown is expected to last up to 45 days and aims to enhance operational stability. Other business activities, including market development and customer services, will continue as usual during the maintenance period.

AMINO ACID

02

Amid tight regional corn supply and rising raw material prices, combined with increasing uncertainties from geopolitical developments affecting logistics and costs, Great Wall Enterprise Co., Ltd. announced price increases across its amino acid product range, with adjustments of approximately USD 13–65/MT. Market participants advise buyers to review inventory strategies and procurement plans accordingly.

API

03

- Florfenicol prices remain stable at \$20.17-20.82/kg, nearing cyclical lows. Cost pressures limit further declines, with expectations of short-term stability.
- China Animal Husbandry Industry Co.,Ltd. plans to acquire 51% of Hebei Shengxue Dacheng Pharma and 72.7% of Inner Mongolia Shengxue Dacheng Pharma for \$105.52M, consolidating them into its financial statements.

FOOD ADDITIVE

04

During the Two sessions, Leng Youbin, Chairman of China Feihe Limited, proposed establishing a National High-Quality Protein Intake Guideline led by China's National Health Commission in coordination with multiple ministries. He also suggested standardizing the labeling of "high-protein" foods under the State Administration for Market Regulation and including high-quality proteins such as casein in the approved raw material list for health foods, aiming to strengthen public awareness of balanced nutrition.
