VITAMIN

01

NHU has newly obtained an invention patent authorization. The patent is titled "Method for Treating Carotenoid Cleaning Water", with the patent application number CN202311156420.4, and the authorization date is April 24, 2026.

AMINO ACID

02

On April 27th, Daesang (Beijing) Food Co., Ltd. stopped quoting amino acid products. Tryptophan and arginine: mainly delivering previous orders. Terminal users are cautious about replenishing recently and some are waiting and seeing. They are paying attention to the recent market signing orders. It is expected that the market will be relatively stable in the near future.

API

03

Recently, the wholly-owned subsidiary of Guobang Medicine, Zhejiang Guobang Pharmaceutical Co., Ltd., received the approval document for the "Talamycin" veterinary drug product from the Ministry of Agriculture and Rural Affairs. Talamycin has previously passed the on-site certification of the US FDA and the EU GMP, and has simultaneously completed the registration of documents in over 30 countries worldwide. It is expected to become the company's next one hundred million flagship product. The acquisition of this domestic approval document is conducive to the company's development and promotion of the domestic market, and expanding the influence of this product in China.

FOOD ADDITIVE

04

Recently, Xiamen Kingdomway Group Co., Ltd. officially released its 2025 annual report. The fiscal year achieved a revenue of 3.365 billion yuan, an increase of 3.87%; net profit was 340 million yuan, a decrease of 0.61%. Jindawei made frequent moves in the raw material sector in 2025. It was building multiple projects in areas such as Coenzyme Q10 and Omega-3 from algae oil. The capacity release and technological improvement in the nutritional raw materials sector achieved remarkable results, and the production end of health food preparations turned losses into profits. However, the overall profit was affected by the impairment of some brand assets from the downstream.
