VITAMIN

01

- According to market sources, CSPC Pharmaceutical Group raised its Vitamin C Phosphate quotation to USD 2.5/KG on June 3. Several producers remain suspended from offering prices, while only a few second-tier suppliers continue quoting at around USD 2.1-2.2/KG FOB.
- Meanwhile, three major biotin producers have increased their quotations for Biotin 2% Feed Grade to USD 4.55/KG, reflecting continued firm market sentiment.

AMINO ACID

02

Jinyufeng Biotechnology's Phase II lysine project at its Health & Biotechnology Industrial Park is currently in the final stage of equipment installation. Single-unit commissioning is scheduled to begin in late July 2026. Upon completion, the company's total lysine production capacity will reach 500,000 MT per year.

API

03

- Fuan Pharmaceutical announced that its wholly owned subsidiary, Kingday Pharma, has received FDA approval for the registration of Diazoxide API in the United States.
- The amoxicillin market remains firm, supported by limited availability of low-priced supplies. Purchasing activity continues to be driven by immediate demand, with current market prices at approximately USD 23.43-24.00/KG. Prices are expected to remain stable in the near term.

FOOD ADDITIVE

04

Sirio Pharma Co., Ltd. announced the completion of the sale of the core personal care business assets of its subsidiary, Best Formulations PC LLC. As the personal care segment had been operating at a loss, the divestment allows the company to further focus on its core nutrition and health solutions business.
