## VITAMIN

01

According to market sources, Garden Biopharmaceutical suspended quotations and order bookings for its Vitamin D3 product series on June 22. Market participants are closely monitoring future supply arrangements and producer pricing strategies, leading to increased attention on the Vitamin D3 market.

## AMINO ACID

02

China exported 63,000 MT of threonine in May 2026, down 9.0% month-on-month but up 3.7% year-on-year. Cumulative exports for January–May reached 322,000 MT, an increase of 5.2% compared with the same period last year. Export order activity has recently been moderate, with producer quotations at USD 990-1020/MT. Domestic trading remains relatively quiet, and end-users continue to replenish inventories cautiously. European market prices are reported at EUR 1.25-1.28/KG, with threonine expected to remain stable with minor adjustments in the near term.

## API

03

- Lukang Pharma recently received approval from China's National Medical Products Administration for the marketing application of Aprepitant API, which is primarily used to prevent chemotherapy-induced nausea and vomiting.
- Meanwhile, supported by higher industrial sulfonamide raw material costs, the sulfonamide market remains firm. Sulfadiazine (Sodium) is currently trading at approximately USD 22.12–22.77/KG, while Sulfamethazine (Sodium) is quoted at around USD 15.62–16.27/KG. Future price movements will depend on downstream demand and raw material cost trends.

## FOOD ADDITIVE

04

The Sucralose market remains generally stable, with mainstream transaction prices at approximately USD 12.23–12.36/KG. Delivery schedules at several major producers remain tight due to strong order commitments, and market participants continue to monitor supply-demand developments.
