VITAMIN

01

Folic Acid quotations remain volatile this month amid moderate demand and a softening market. Reference prices for mainstream brands with 2026 batch dates are currently around USD 38.30-39.7/KG, while some brands are offered at USD 31.70-33.00/KG. Actual transactions are mostly subject to negotiation.

AMINO ACID

02

On August 25, 2026, Jinyufeng Biotechnology updated its Lysine quotations: 70% Lysine at USD 528/MT, 80% Lysine at USD 580/MT, and 98.5% Lysine at USD 845/MT.

API

03

Amoxicillin spot availability is ample this month, while end-user demand remains moderate. Market prices have softened to around USD 22.20-23.20/KG and are expected to remain weak in the near term. Market demand and producer supply conditions will be key factors to monitor going forward.

FOOD ADDITIVE

04

At its 2026 interim results briefing, Angel Yeast stated that its yeast and derivative production capacity is currently operating near full utilization. New capacity in Indonesia and Russia is under construction, which is expected to strengthen overseas supply. Meanwhile, the company is positioning yeast protein as its third major growth driver, with applications expanding from traditional supplements into the food sector.
