

FOOD ADDITIVES MONTHLY REPORT

Report Date: September,11,2026

Catalogue

1. Vitamins

- 1) Vitamin A
- 2) Vitamin D3
- 3) Vitamin E 50% CWS /VE Oil 98%
- 4) Vitamin C/Coated 97/DC97
- 5) Vitamin B1 Mono/Hcl
- 6) Vitamin B5/D-Calcium Pan.
- 7) Folic Acid
- 8) Biotin 98%
- 9) B12 / B12 1%

2. Sweeteners

- 1) Glucose series
- 2) Erythritol
- 3) Aspartame
- 4) Sucralose
- 5) Saccharin Sodium

3. Acidulants

- 1) Citric acid series
- 2) Taurine
- 3) DL-Malic acid

4. Preservatives

- 1) Sorbic Acid /Potassium Sorbate
- 2) Sodium Benzoate
- 3) Calcium Propionate

5. Antioxidants

- 1) Sodium Erythorbate
- 2) Sodium Ascorbate
- 3) Natural Vitamin E

6. Joint Care Series

- 1) Chondroitin sulfate
- 2) Glucosamine
- 3) Sodium hyaluronate

7. Other products

- 1) Coenzyme Q10
- 2) Inositol
- 3) Creatine Mono.
- 4) L-Glutamine
- 5) β -alanine
- 6) Omega 3
- 7) Xanthan Gum
- 8) Reduced L-Glutathione

Vitamins

Vitamin A

The current market's price for Vitamin A P1.7Miu at USD53/kg, the price of Vitamin A P250CWS at above USD16/kg, and Vitamin A acetate 325CWS is around USD20/kg, and the price for Vitamin A acetate 500CWS is around USD25/kg.

Vitamin D3

The VD3 market remained stable, At present, the market price of VD3 100,000 is around USD8.5/kg, and the market price of VD3 1MIU is around USD51/KG based on different manufacturers. But as a manufacturer, we can support competitive prices

Vitamin E 50% CWS /VE Oil 98%

Vitamin E Oil has dropped a little recently. At present, the market price of 98% vitamin E oil is around USD24/KG, and the market price of 50% Vitamin E CWS is around USD17/KG. We can offer competitive prices from various brands.

Vitamin C

After a slide through July-August, mainstream Chinese producers (e.g. CSPC, Luwei) have suspended price quotes since late August, and spot prices have firmed from the bottom of RMB 18/kg to RMB 21-23/kg. Export prices have also stabilized at USD 2.7/kg in July (+1.5% MoM). Downstream demand is still hand-to-mouth, but the annual contract season is approaching and production cuts are yet to recover. Now the manufacturer CSPC and Shandong Tianli begin to offer it about USD3.6/kg FOB China.

Vitamin B1 Mono/Hcl

The Vitamin B1 market remained stable, with no significant changes in supply or demand. Current FOB prices are approximately USD 32/kg for Vitamin B1 Mono and USD 36/kg for Vitamin B1 HCl, while overall market activity continues at a steady pace.

Vitamin B2 98%

The Vitamin B2 98% market remains generally stable, with current quotations from mainstream manufacturers at around USD 28.5-45/kg.

Niacin/Nicotinamide

The food-grade Niacin and Niacinamide markets remained stable, with no significant changes in overall supply and demand. Current FOB prices for both products are around USD 5.5/kg. Market conditions are expected to remain relatively steady in the near term.

D-Calcium Pan/Vitamin B5

The market price of calcium pantothenate remained stable in July, with no significant fluctuations observed. Current FOB prices are around USD 5.3-5.5/kg, while supply and demand conditions remain balanced.

Vitamin B6

The Vitamin B6 market remained relatively stable, while price levels vary significantly among different suppliers due to differences in production costs, inventory positions, and supply conditions. Current market quotations are around USD 13–14/kg FOB China.

Folic Acid

The folic acid held steady in July, supported by balanced supply and demand conditions. Current FOB prices are around USD 35.7-38.3/kg, with mainstream manufacturers keeping offers relatively firm.

Biotin 98%

The biotin market price declined slightly in June compared with the previous period. Current FOB prices are around USD 135/kg, with overall market demand and supply remaining relatively stable. Manufacturers are maintaining steady production and delivery schedules.

B12 / B12 1%

Some factory undergone summer maintenance in August, however subdued market demand afterwards pushed prices down instead. The market price of B12 pure is currently 1275-1430 USD/kg, for 1% at around 30 USD/KG.

Sweeteners

Glucose series

In this month, the prices gradually stable in the market. The price of glucose anhydrous is at about USD 0.63-0.65/KG, and the transaction price of glucose monohydrate in the market is about USD 0.45-0.48/KG. Prices remain relatively low amid subdued demand.

Aspartame

The price of Aspartame is table. Currently, the price is stable at about USD 9-10/KG.

Erythritol

The market for erythritol is stable. The market price of FCL is around 1.35-1.45USD/KG according to different manufactures.

Sucralose

The price of Sucralose is stable, now the current market price level is around USD12.5-13/KG.

Saccharin Sodium

The market is stable. Current market price FOB USD6-6.5/KG.

Acidulants

Citric acid series

The market price of citric acid anhydrous is around USD 0.79/KG FOB, and the market price of citric acid monohydrate is around 0.72/KG FOB. Prices have dropped slightly this month. Factory delivery pressure has also reduced. Factory delivery pressure has eased, while downstream customers remain cautious and are mostly taking a wait-and-see approach toward new purchases.

Taurine

Market is keeping increasing with constrained availability, driven by maintenance schedules at major factories as well as soaring raw- material costs. Current market price is at around 3.8-3.9USD/KG. We hold spot stock from big brand to support any urgent demands.

DL-Malic acid

The price of Malic Acid market price is slightly decrease in this month, due to raw materials price decreasing and weak demands. The current market price is at USD1600-1800/MT.

Preservatives

Sorbic Acid /Potassium Sorbate

Recently, the market has been rather quiet and the prices have remained unchanged. The price of sorbic acid is 2.95usd/kg, and the price of potassium sorbate is around 2.3usd/kg.

Sodium Benzoate

At present, raw materials are still increasing in price and there is a shortage of supply. Need to focus more on it. The current market price is approximately 1.3 - 1.35usd/kg.

Calcium Propionate

Calcium propionate is currently stable and there has been little change in the market. The price is around 0.8usd/kg, can focus more on it.

Antioxidants

Sodium Erythorbate

Remains rock-steady at RMB 22/kg (≈USD 3.1/kg) — no volatility, no supply disruption. Top Chinese plants are running at full capacity, and China accounts for 70% of global capacity, so availability is never an issue.

Sodium Ascorbate

Being influenced by the overall upward trend in the vitamin C market, price offer at about 4.5usd/kg.

Natural Vitamin E

On the natural vitamin E front, our cost for natural VE 700 IU is table about 37.5-38usd/kg Overall, the natural VE series has shown little change compared to previous levels, with market prices remaining relatively stable and no significant fluctuations observed in the near term.

Joint Care Series

Chondroitin sulfate

Market is stable, we can offer different origins & types with competitive price. Health Certificate & Halal Certificate available.

Glucosamine

Current price is at low level, we are competitive in fermented GS 2KCL, GS HCL & N-Acetyl-Glucosamine. Suitable for Vegetarian formulation.

Sodium hyaluronate

Currently, the market price is relatively stable. We have regular food-grade hyaluronic acid 0.8 - 1.5MDa powder available for delivery within 15 days.

Other Products

Coenzyme Q10

Market keeps stable with market price at around 130USD/KG.

Inositol

Market remains weak-stable, mainstream manufacturers are offering it around USD6/kg. Recently customers tend to place order based on actual demands. At our side, still have some ready resources from principal brands to support any upcoming requirements.

Creatine Mono.

Recently some manufacturers suspended quotations or raised prices amid sharp increase in raw material cost. Deliveries have been extended to at least mid Sep. Also now comes the peak season for this product, market is easy to go up, advise review your demands in advance.

L-Glutamine

The price of L-Glutamine is slow decreasing in this month, the current price at USD 7.4-7.7/kg.

β-alanine

Market for alanine is stable at around 4USD/KG, MT quantity based.

Omega 3

The Omega 3 market has recently experienced a sharp price surge accompanied by severe supply shortages.

Xanthan Gum

Recently, the market has been stable, the market demand is generally moderate. Depends on different brands, the price is around 2.4-2.6usd/kg.

Reduced L-Glutathione

Market demand keeps stable, the prices are relatively mild. The current market price is around USD 52-56/kg.
