VITAMIN

01

According to market feedback, on September 16, ZMC notified domestic customers that its signing price for Vitamin E 50% feed grade had been raised to USD 11.23/KG. ZMC also announced the cancellation of all previously signed contracts at USD 10.57/KG that had not yet been shipped.

AMINO ACID

02

According to market sources, amid tight supply, Eppen Biotech and FUFENG GROUP have raised prices for L-Lysine HCl 98.5% by USD 13.21/MT, effective immediately. Priority will be given to supplying long-term, stable customers.

API

03

- Zhejiang Huahai Jiancheng Pharmaceutical Co., Ltd. recently announced a project involving annual production of 140 MT Amlodipine Besylate and other APIs. With a total investment of approximately RMB 7 million, the project will also include annual capacity of 20 MT Sacubitril, 40 MT Sacubitril Sodium/Valsartan Sodium, and 70 MT Sertraline HCl.
- Florfenicol supply remains tight as some producers continue maintenance shutdowns. Market inquiries and trading activity have increased, with current producer quotations at around USD 21.8-22.45/KG. The market is expected to remain firm in the near term.

FOOD ADDITIVE

04

The 2026 Low-GI Food and Healthy Consumption Industry Consensus, jointly compiled by 21 research institutes and enterprises under the leadership of the Institute of Food and Nutrition Development, Ministry of Agriculture and Rural Affairs of China, was recently released. The consensus addresses the misuse of low-GI concepts and uneven product quality, aiming to clarify scientific understanding of low-GI diets and promote higher-quality industry development.
