VITAMIN

01

- DSM-firmenich has filed a patent infringement lawsuit with the Xiong'an New Area People's Court against several Chinese entities, including a Sclareol producer and a research institution, alleging unauthorized use of its biotechnology patent for Sclareol production. The company is seeking an injunction and damages.
- New Hope Liuhe held a groundbreaking ceremony for its new feed plant in Egypt on September 24. The 34,200 m² facility will produce poultry, ruminant, and aquaculture feed, further expanding the company's production capacity in Egypt.

AMINO ACID

02

- On October 2, CJ Bio and ADM reached an agreement to establish a new joint venture focused on the development, production, and sales of fermentation-derived feed-grade amino acids in the Americas. The JV will integrate production and sales resources across North and South America and obtain exclusive regional sales rights.
- LB Group has started construction of a 200,000 MT/year Titanium Dioxide green manufacturing project in Malaysia, with products targeting the EU, Middle East, India, and Southeast Asian markets.

API

03

Newland Pharmaceutical received approval from China's NMPA for its Fondaparinux Sodium API, with the approval valid for 24 months. The synthetic Factor Xa inhibitor is free of animal-derived ingredients and is used primarily for the prevention and treatment of venous thromboembolism and anticoagulation-related indications.

FOOD ADDITIVE

04

- Kingdomway obtained a patent for a Chondroitin fermentation production control method, which improves substrate conversion and Chondroitin content in fermentation products, further strengthening its IP portfolio.
- COFCO Biochemical (Maanshan) has announced a 5,000 MT/year β -Cyclodextrin expansion project, using existing facilities to establish a new production line and supporting CGT enzyme production and other auxiliary systems.
