

FOOD ADDITIVES MONTHLY REPORT

Report Date:October,27,2026

Catalogue

1. Vitamins

1) Vitamin A
2) Vitamin D3
3) Vitamin E 50% CWS /VE Oil 98%
4) Vitamin C/Coated 97/DC97
5) Vitamin B1 Mono/Hcl
6) Vitamin B5/D-Calcium Pan.
7) Folic Acid
8) Biotin 98%
9) B12 / B12 1%

2. Sweeteners

1) Glucose series
2) Erythritol
3) Aspartame
4) Sucralose
5) Saccharin Sodium

3. Acidulants

1) Citric acid series
2) Taurine
3) DL-Malic acid

4. Preservatives

1) Sorbic Acid /Potassium Sorbate
2) Sodium Benzoate
3) Calcium Propionate

5. Antioxidants

1）Sodium Erythorbate
2）Sodium Ascorbate
3）Natural Vitamin E

6. Joint Care Series

1) Chondroitin sulfate
2) Glucosamine
3) Sodium hyaluronate

7. Other products

1）Coenzyme Q10
2）Inositol
3）Creatine Mono.
4）L-Glutamine
5）β-alanine
6）Omega 3
7）Xanthan Gum
8）Reduced L-Glutathione

Vitamins

Vitamin A

The current market's price for Vitamin A P1.7Miu at about USD53/kg, the price of Vitamin A P 250CWS at about USD16/kg , and Vitamin A acetate 325CWS is around USD20/kg, and the price for Vit amin A acetate 500CWS is around USD25/kg.

Vitamin D3

The VD3 market remained stable, At present, the market price of VD3 100,000 is around USD8.5/kg, and the market price of VD3 1MIU is around USD51/KG based on different manufacturers. But as a manufacturer, we can support competitive prices.

Vitamin E 50% CWS /VE Oil 98%

Vitamin E Oil has dropped a little recently. At present, the market price of 98% vitamin E oil is around USD20/KG, and the market price of 50% Vitamin E CWS is around USD16/KG. We can offer competitive prices from various brands.

Vitamin C

After a slide through July-August, mainstream Chinese producers (e.g. CSPC, Luwei) have suspended price quotes since late August, and spot prices have firmed from the bottom of RMB 18/kg to RMB 21-23/kg . Export prices have also stabilized at USD 2.7/kg in July (+1.5% MoM). Downstream demand is still hand-to-mouth, but the annual contract season is approaching and production cuts are yet to recover.Now the manufacturer CSPC and Shandong Tianli begin to offer it about USD3.6/kg FOB China.

Vitamin B1 Mono/Hcl

The Vitamin B1 market remained stable, with no significant changes in supply or demand. Current FOB prices are approximately USD 30/kg for Vitamin B1 Mono and USD 35-36/kg for Vitamin B1 HCl, while overall market activity continues at a steady pace.

Vitamin B2 98%

The Vitamin B2 98% market remains stable, with no significant changes in supply or pricing. Current quotations from mainstream manufacturers remain at approximately USD 28.5–45/kg.

Niacin/Nicotinamide

The food-grade Niacin and Niacinamide markets remain relatively stable, with customers purchasing mainly based on actual demand. Prices have edged up slightly, with current FOB quotations at approximately USD 5.9/kg. Overall supply and demand remain balanced, with only minor price fluctuations expected in the near term.

D-Calcium Pan/Vitamin B5

The calcium pantothenate market remains relatively stable, with prices declining to a low level of approximately USD 5.1/kg FOB. Overall supply and demand remain balanced, while prices appear to be approaching the market bottom.

Vitamin B6

The Vitamin B6 market remains relatively stable, with current FOB China quotations holding at approximately USD 13/kg. Prices remain at historically low levels, showing signs of bottoming out, while quotations continue to vary among suppliers.

Folic Acid

The folic acid market continues to show a gradual downward trend, with prices remaining under slight pressure. Current quotations are around USD 33–35/kg, reflecting a generally weak market sentiment and a softening price trend.

Biotin 98%

The biotin market remains stable, with FOB prices holding at approximately USD 135/kg. Quotations vary among manufacturers, while overall supply and demand remain balanced, with production and delivery schedules operating normally.

B12 / B12 1%

Market keeps relatively stable with price at low level. The market price of B12 pureis is currently at1285-1430USD/kg, for 1% at around 30USD/KG.

Sweeteners

Glucose series

The market price remains stable this month, and manufacturers maintain smooth delivery. Anhydrous Glucose is quoted at approximately USD 0.65–0.67/kg, and the market transaction price of Glucose Monohydrate stands at around USD 0.48–0.51/kg.

Aspartame

The price of Aspartame keep table. Currently, the price is stable at about USD 9-10/KG.

Erythritol

The market for erythritol is stable. The market price of FCL is around 1.35-1.45USD/KG according to different manufactures.

Sucralose

The price of Sucralose is begin to rise recently , now the current market price level is still in the bottom at around USD13/KG. We need to pay attention about the price will keep rising maybe.

Saccharin Sodium

The market is stable. Current market price FOB USD6-6.5/KG.

Acidulants

Citric acid series

The EU launched an expiry review on September 14. Against the backdrop of possible changes in anti-dumping duties, many customers have brought forward their Q4 purchasing plans. Factories have received a surge of orders, resulting in tight delivery and price increases. The FOB price of monohydrate citric acid is around USD 0.81/kg, and anhydrous citric acid stands at approximately USD 0.88/kg. Further price rises are expected.

Taurine

Market is keeping increasing with constrained availability, driven by maintenance schedules at major factories as well as soaring raw- material costs. Current market price is at around USD4.2/KG. We can support with limited stock from big brand .

DL-Malic acid

The market price of DL-Malic Acid has remained relatively stable over the past month, supported by raw material costs and market demand.

Preservatives

Sorbic Acid /Potassium Sorbate

Recently, the market has been rather quiet and the prices have remained unchanged. The price of sorbic acid is 2.95usd/kg, and the price of potassium sorbate is around 2.3usd/kg.

Sodium Benzoate

This month, the upward trend has halted and prices have stabilized, can foucs more on it. Which may changed on Q4. The current market price is approximately 1.3 - 1.35usd/kg.

Calcium Propionate

Calcium propionate is currently stable and there has been little change in the market. The price is around 0.8usd/kg, can focus more on it.

Antioxidants

Sodium Erythorbate

Remains rock-steady at RMB 22/kg (≈USD 3.1/kg) — no volatility, no supply disruption. Top Chinese plants are running at full capacity, and China accounts for 70% of global capacity, so availability is never an issue.

Sodium Ascorbate

Being influenced by the overall upward trend in the vitamin C market, price offer at about 4.5usd/kg.

Natural Vitamin E

On the natural vitamin E front, our cost for natural VE 700 IU is table about 37.5-38usd/kg Overall, the natural VE series has shown little change compared to previous levels, with market prices remaining relatively stable and no significant fluctuations observed in the near term.

Joint Care Series

Chondroitin sulfate

Market is stable, we can offer different origins & types with competitive price. Health Certificate & Halal Certificate available.

Glucosamine

Current price is at low level, we are competitive in fermented GS 2KCL, GS HCL & N-Acetyl-Glucosamine. Suitable for Vegetarian formulation.

Sodium hyaluronate

Currently, the market price is relatively stable. We have regular food-grade hyaluronic acid 0.8 - 1.5MDa powder available for delivery within 15 days.

Other Products

Coenzyme Q10

Market keeps stable with market price at around 130USD/KG.

Inositol

Market remains weak-stable. Recently customers tend to place order based on actual demands. While it appears to be a good time to make some good price stock for customers with long term demands.

Creatine Mono.

Prices continue to rise amid soaring raw material costs. Manufacturing are quoting at around 3-3.3 USD/KG FOB based, with deliveries extending to late Oct. Also now comes the peak season for this product, advise make plan in advance.

L-Glutamine

L-Glutamine is mainly available from stock recently, with stable prices and no obvious fluctuations. The current price stands at USD7.8/kg.

β-alanine

Market for alanine is stable at around 4USD/KG, MT quantity based.

Omega 3

The Omega 3 market has recently experienced a sharp price surge accompanied by severe supply shortages.

Xanthan Gum

Recently, the market has been stable, the market demand is generally moderate. Depends on different brands, the price is around 2.4-2.6usd/kg.

Reduced L-Glutathione

Market demand keeps stable, the prices are relatively mild. The current market price is around USD 52-56/kg.
